Heloo

This is a 2008 permit. It is expired and you will need to obtain a new permit. The cost of the new permit will be the basic permit fee and the 2% & 7%. The person at the counter can tie the two permits together in the comments section.

We had to stop work on the referenced permit before we could complete the palm tree up lighting. Now we want to proceed. How can I re-activate the permit most quickly? Tell me what to do and I will. Thanks Anthony.
